DETAILED ACTION

Allowable Subject Matter

1. Claims 11-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: The cited prior art references fail to disclose or suggest applicant's "plurality of flexible elements connecting the damping disk to the stationary damping chamber so that as the shaft oscillates the flexible elements bend, the flexible elements together with the ferro-fluidic fluid damping the oscillating shaft," as recited in base claims 11, 19 and 24; or a damping mechanism that is not rotationally symmetrical relative to an axial direction of the shaft, as recited in base claims 12 and 20; or a damping element provided with through holes proceeding in an axial direction of the shaft, as recited in base claims 13 and 21; or a bearing connected to the shaft comprising a spoke bearing, as recited in base claim 14. Claims 15 and 16 depend from claim 14; claims 17 and 18 depend from claim 11; and claims 22 and 23 depend from claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas D. Lee whose telephone number is (571) 272-7436. The examiner can normally be reached on Monday-Friday (7:30-5:00), alternate Fridays off.
